

Chicago JOBS WITH JUSTICE

Our Story

Chicago Jobs with Justice was founded in 1991 through a coalition of community, faith, and labor leaders who saw the need to mobilize and build solidarity and power together. Since then, Chicago JWJ, with its broad base of coalition partners, has accomplished big things for the workers of Chicago and beyond. From establishing Chicago's first worker center to creating connections between immigration organizations and labor unions, Chicago JWJ has a decades-long reputation of building people power through relentless solidarity.

Our Mission

Jobs with Justice believes that all workers should have collective bargaining rights, employment security, and a decent standard of living within an economy that works for everyone. We bring together labor, community, student, and faith voices at the national and local levels to win improvements in people's lives and shape the public discourse on workers' rights and the economy.

Our Vision aka Our North Star

The Liberation of All Workers

Our Constellations

Our constellations are the strategies which guide us in our work and keep us grounded in our vision, our North Star. These three strategies guide our tactics to keep us focused, with workers at the center of that focus.
